INNOVATIVE EXCELLENCE IN ERGONOMIC SEATING

## Classic Lab Stool (CLS)

Office Master designed its new CLS series to be low-maintenance, simple adjustment stools that would be a facility manager's dream come true, and a lab technician's best friend. Incorporating the adaptable GSP option as a standard feature, the CLS series also stands out because of its ability to blend in... Namely, since it shares the same look as our PA value series, the smooth lines of the CLS series make it possible to have a uniform look to your office seating family.
