- Wide-ranging options from Deluxe to wide-body seating area to maximum, all-purpose adjustability... there's an option for everyone

Doctor Stool: CL12, CL13, CL35 –

- Exam room stool featuring ring-shaped height adjustment control that gives users the option of raising or lowering the stool from any side

Surgeon Stool: CL14 & CL15 –

- Foot-activated height adjustment mechanism allows freedom and hands-free ease-of-use

The *specialized* Office Master Healthcare Seating Collection

Guest Seating

The ST- series, SG- series, and Pace and Patriot side/conference chairs are perfect for any of your guest seating needs. We designed these chairs with comfort, mobility and durability in mind, and we threw in stylish designs to top it all off. Conveniently varied so that there's a perfect chair for every room, and options to fit every need.

Guest Chair: SG2K, ST200, & ST200C –

- Waterfall seating surface with stylish, perforated back
- Semi-mobile Caster/Glide combination on SG2K allows for stability in use and also ease of movement

Stackable Guest Chair: SG3A, SG3B, SG3C, SG3W, & SG300 –

- Tapered legs, space-saver design and rich combinations of colors, cushioning, and design
- Extra-thick cushioning on SG3W seat and back for maximum comfort

Side/Conference Chair: 8800S, 9100S, 9101S –

- Thicker all-around cushioning, posture tracing contours and a continuous seat and back set these chairs apart as good looking and comfortable guest seating options

Office Master's Chairology Collection™ is designed with the specific seating needs of healthcare professionals in mind. As a result, we feel confident that no matter the environment, no matter the use, we are likely to already have something that is the perfect solution for your situation.

If you have any questions about the Chairology Collection™, or indeed about any chair that Office Master makes, please don't hesitate to give our area sales representatives a call... I'm sure they'd love to hear from you!
