New Arm Pad Pricing

NEW Memosoft Armpads (replaces Gel pads)

All orders for Gel Arm Pads will now be switched to the new Memosoft Armpads. Injected with a memory-foam-like substance, these armpads are relatively softer than a majority of pads out there. But, this armpad is different because it resists the type of accidental (and messy) puncturing that Gel pads sometimes fall victim to. ~ [Product Code = AP40M](#)

Arm Model	Old List (w/ old Gel Armpads)	New List Price (w/ Memosoft Armpads)
KR25M	\$114.19 →	\$100.00
KR200M	\$143.06 →	\$125.00
JR30M	\$148.31 →	\$135.00
JR40M	\$195.56 →	\$185.00
AP40M	\$39.38 →	\$29.99

** Again, all Gel Armpad orders will automatically be changed to *Memosoft Armpads*.

** An "M" suffix on arm models - instead of "G" - will signify Memosoft pads. (e.g., 0JR40G → 0JR40M; 0KR25G → 0KR25M; etc...)

NEW Durasoft Armpads

Durasoft Armpads are basically what every Armpad out there wishes *they* could be: *Soft*, but with a **durability** has led us to call them, well, **Durasoft!** These armpads are a standard part of our new fold-away "JRPD arms", but otherwise can be purchased as an up-charge, or separately (see below). ~ [Product Code = APJRPD](#)

	Up-Charge (List)	Separate Purchase (List)
Durasoft Armpads	\$69.00	\$89.00
